Newborn Information Guide 2019

Hello!

The art of photography is much more than just producing pictures on paper. It's about capturing the spirit and love of your family for you to reflect on in the years to come. In our busy lives it is so important to take some time every now and then to capture the unique milestones in life - even when it might feel mundane.

One of the most rewarding aspects of my job is getting to know you and your family. Then I can create portraits that reflect your family's unique character.

My style can be described as lifestyle inspired. I love to get a mix of candid and posed images. One thing I will never do is make you tilt your head a certain way, or tweak you like a mannequin. I am constantly inspired by toddlers and the amazing things they are drawn to do.

Fresh 48

Fresh 48 Sessions are taken place of your little one in their first 48 hours of life! Most of the time that means that the photos are taken right in your hospital room to capture all their newness.

I've photographed 5,000+ babies in hospital lots of different types of hospital rooms. These sessions are not posed, and are meant to tell the story of your little one's first few days, and typically last just 30 minutes

Included in all sessions is a client questionnaire. This allows me to get to know you and your family better, and it ensures that we capture the images that will make your heart sing for years to come.

Includes 20+ fully edited high resolution images that you can download and use however you'd like, and 2 prints of your choice 8x10 or smaller.

\$350

Posed

Posed sessions are the perfect choice when you want the focus to be more on that sweet little baby of yours. This is done in your own home and usually takes about 2 hours with a lot of that time taken up with settling and soothing them into a deep sleep.

I have a large variety of props, hats and blankets to choose from to get the most adorable results. Once we have captured some great shots showcasing your baby, we can take a few family photos too.

Included in all sessions is a client questionnaire. This allows me to get to know you and your family better, and it ensures that we capture the images that will make your heart sing for years to come.

Includes 30+ fully edited high resolution images that you can download and use however you'd like, and 2 prints of your choice 8x10 or smaller.

\$750

Lifestyle

Lifestyle sessions are located at your home, in a comfortable room with great natural light, whether that be your family room, nursery or master bedroom. These are typically very unposed sessions and highlight the relationship between family members and the new addition to the family. I love to focus on the beautiful relationship between parents, siblings and even pets to capture you all just as you are as a family.

Included in all sessions is a client questionnaire. This allows me to get to know you and your family better, and it ensures that we capture the images that will make your heart sing for years to come.

Includes 30+ fully edited high resolution images that you can download and use however you'd like, and 2 prints of your choice 8x10 or smaller.

FAQs

How do we book our session? Send me an email (kimberly@ksienk.com), and we can decide on a date that works best for you. Make sure you contact me before your baby is born. Once they make their grand entrance we can choose a date.

Do we need to purchase a photo package? No. But I believe that photos hold so much more meaning when you can hold them in a physical form than looking at them on a screen.

How long does it take to see our photos? Your online gallery will be available two weeks after your session. From there you can download all the images.

How should we prepare for the session? Choose a location for you and fill out the questionnaire. Then prepare to have fun and be yourself at the shoot!
